Reference

The MND Association became involved with Business Technology Partners Pty Ltd in February 2009 when the MND Association together with 8 other charities relocated to new premises at 302 South Road, Hilton SA.

BTP were called in to resolve a litany of horrendous issues and problems created by the people initially engaged to establish the data and internet services in the new premises.

It was difficult task sorting out the installation. To their credit, BTP dealt with the issues and problems within a short period of time and had the systems of each charity working to their satisfaction.

BTP have been engaged to maintain the data and internet systems on an ongoing basis. Their service support response has been immediate with any issues being resolved in minimal time. They have an excellent knowledge and understanding of IT systems.

I am pleased to recommend BTP to potential clients considering using their services and can be contacted as indicated above.

Peter Whitehouse
